PROFESSIONAL SUMMARY

Full Stack Developer (MERN) with hands-on experience building and deploying production-grade web applications using React.js, Node.js, Express.js, and MongoDB. Completed internship in an Agile team environment with demonstrated ability to deliver responsive, RESTful API-driven applications. Currently pursuing MCA, seeking a software developer role to contribute to scalable systems and real-world product engineering.

TECHNICAL SKILLS

Frontend: React.js, Redux Toolkit, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap, Responsive Design

Backend: Node.js, Express.js, REST API Design, JWT Authentication, Middleware

Database: MongoDB, Mongoose ODM, SQL

Languages: JavaScript (ES6+), TypeScript, Python

Tools & Deployment: Git, GitHub, VS Code, Postman, Vercel, Cloudflare Workers

WORK EXPERIENCE

Member of Technical Staff — Codemate AI

Sep 2025 – Apr 2026

- Developed and maintained full-stack web applications using **React.js**, **Node.js**, and modern JavaScript frameworks.
- Integrated AI-powered features and services into web applications to enhance functionality and user experience.
- Deployed and managed applications on **Cloudflare Pages**, ensuring reliable and scalable hosting.
- Debugged and optimized existing codebases, identifying and resolving performance and functionality issues.
- Contributed to the development of **HirePro**, a major recruitment and hiring platform project.
- Designed logos and branding assets for products and marketing initiatives.

PROJECTS

HirePro — AI Hiring Assistant (MERN Stack, Cloudflare Workers)

- Built a full-stack AI-powered hiring assistant platform supporting automated candidate assessments, coding tests, and interview scheduling workflows.
- Designed and implemented RESTful APIs with Node.js and Express.js, handling authentication, candidate data, and evaluation state.
- Deployed frontend on Cloudflare Workers with React.js; integrated backend services with MongoDB for persistent candidate records.

Nestigo — Hotel Booking Platform (MERN Stack, Vercel)

- Developed a full-stack hotel booking application enabling users to search, filter, and book hotels by location, price, and availability.
- Implemented JWT-based user authentication with protected routes for booking management and user profiles.
- Built RESTful API with Express.js and MongoDB for hotel listings, real-time availability filtering, and reservation handling.
- Deployed on Vercel with environment variable configuration and custom domain setup.

Personal Portfolio (Next.js, Tailwind CSS, Vercel)

- Designed and developed a fully responsive personal portfolio using Next.js with server-side rendering and Tailwind CSS for styling.
- Deployed on Vercel with automated CI/CD pipeline via GitHub integration; configured custom domain and preview environments.

EDUCATION

United School of Business Management, Bhubaneswar, Odisha

Sep 2024 – Present

Master of Computer Application (MCA)

Transitioned to software development through structured MCA program and 500+ hrs of self-directed full-stack coursework.

Biju Pattnaik Degree College, Kendrapara, Odisha

Aug 2020 – Jul 2023

Bachelor of Science — Physics

CERTIFICATIONS

- Full Stack Web Development Bootcamp — Udemy (Dec 2024)
- Python Programming — Code with Harry (May 2025)
- Internet of Things (IoT) — NPTEL (Jan 2025)
- Cloud Computing — NPTEL (Jan 2025)

ACHIEVEMENTS & ACTIVITIES

- Participated in BPUT Hackathon 2025 — worked on real-time full-stack problem solving under time constraints.
- Attended Entrepreneurship & AI Summit — exposure to AI innovation, product thinking, and founder insights.
- Completed two-day workshop on Cyber Security & Ethical Hacking (in collaboration with NYTT).
- Maintains active open-source GitHub profile with multiple deployed project repositories.
